Objective

Creative Computer Science student and Business Club Vice President with strong UI/UX and visual design skills in Figma, Canva and Adobe Express, plus video editing. Seeking the Graphic Designer Intern role to create clear, on-brand designs and deliver work quickly in a fast-paced team.

Education

Physics Wallah Institute of Innovation **2025 – 2029 (Pursuing)**
B.Tech in Computer Science Engineering, Pune, Maharashtra

Medhavi Skills University **2025 – 2029 (Pursuing)**
B.Tech in Computer Science Engineering, Singtam, East Sikkim

Experience

Web Developer Intern | KP Smart IT Solutions *1 May 2026 – 20 June 2026*

- Designed user-friendly UI/UX layouts focused on usability, clean visuals and consistent styling.
- Built responsive, interactive web pages with HTML, CSS and JavaScript, delivering to deadlines.

Vice President | Business Club, Institute of Innovation

- Lead club activities and coordinate with members and faculty to deliver events on time.
- Take feedback, follow up and keep work moving across the team.

Event Manager | Business Investor Dilemma (Startup Competition)

- Managed participant coordination, scheduling and execution of a startup competition.

Projects

Care Queue Management System

- Designed an accessible, easy-to-use queue interface for patients and staff in a healthcare-style setting.
- Built real-time status tracking with a responsive layout for mobile and desktop.

Task Tracker – task-tracker-flax-phi.vercel.app

- Designed a fully responsive UI with colour-coded priority badges and a 4-stat dashboard; live on Vercel.
- Built with Next.js, React and TypeScript, with CRUD, due-date tracking and search/sort.

Travel Planner

- Designed an interactive itinerary planner with map-friendly UI components, responsive on all screens.

Skills

Design Tools: Figma, Canva, Adobe Express
Design Fundamentals: UI/UX Design, Layout, Typography, Colour, Responsive Design
Editing: Video Editing
Frontend Development: HTML5, CSS3, JavaScript, TypeScript, React.js
Other: Google Sheets, Tableau, Team Collaboration

Achievements

- **Hackathon Finalist –** Secured a top finalist position, working in a team on frontend and design for real-world problems.
- Actively participated in multiple coding and innovation events, recognised for technical and design contributions.
